ITEM 110

APPLICATION

The provisions of this tariff will apply on Dry and Liquid commodities, in bulk, at designated GU Bulk Transfer (GUBT) facilities at the following locations:

Massachusetts	West Upton
Massachusetts	North Grafton (self unloading only)
Massachusetts	North Grafton LPG terminal
Massachusetts	Hopedale (self unloading only)

Each GUBT listed above is operated by GU, in some cases through a subcontract with a terminal operator (the "Terminal Operator") that will be performing transloading services for and under the auspices of GU. The purpose of this tariff is to advise GU shippers of the services they may expect when utilizing a GUBT and the services of a Terminal Operator. Upon request of the shipper, the terminal services named herein will be performed on carload shipments in bulk as described herein (See Note 1), which move in GU line haul service to or from the above terminals, subject to the charges, rules and regulations published herein.

To arrange for terminal services specified in Item 115 at locations specified above, Shipper must notify GU's Marketing Department at 860-627-8924 before actual shipment of product is made, advising the terminal of the commodity and the car number to be shipped.

NOTE 1: GUBT facilities will handle Dry and Liquid Commodities in bulk when appropriate infrastructure and equipment for handling such Commodities are available. The Terminals will require shipper to provide Safety Data Sheets (SDS) and will keep same on file at the terminal; product Handling Protocol for hazardous materials and such other information as may be required, including the need for special transfer equipment, personal protective equipment (PPE), pollution control, etc., prior to shipment of the commodity. GU reserves the right to refuse any commodity at its GUBT facilities.

ITEM 112

MOTOR CARRIER ACCESS

A shipper must retain a motor carrier to load or unload Commodity at GUBT. In order to load or unload Commodity at a GUBT, a motor carrier must execute an Indemnity and Hold Harmless Agreement among the motor carrier, GU and the Terminal Operator, covering the motor carrier's activities while at the GUBT. When this agreement is fully executed, a motor carrier is "preapproved". Carriers and their employees operating at GUBT site are required to conform to all such rules and procedures. A a motor carrier must execute a separate Indemnity and Hold Harmless Agreement for each GUBT location.

All pre-approved motor carriers may deliver to or pull loads from a Grafton and Upton Railroad Bulk Transfer Terminal. Motor carriers may be required to assist in the connection and loading or unloading of the trailer. The motor carrier will be responsible for its equipment

TARIFF GU5000-E
RULES AND OTHER GOVERNING PROVISIONS
GENERAL RULES AND REGULATIONS

at all times and the driver must remain with the vehicle while loading or unloading. The motor carrier will comply with all required safety procedures, which will include the removal of vehicle keys while loading Hazmat products. Authorized terminal personnel, not drivers or personnel of any motor carrier, will load or unload all hazardous materials.

A motor carrier that is not pre-approved will not be allowed to enter a GUBT, and the motor carrier driver must have a valid CDL (Commercial Driver's License) in his/her possession while conducting activities at the GUBT. Motor Carrier driver must have a DOT hazardous materials endorsement if transporting hazardous materials.

Prior to entering the GU LPG terminal all LPG drivers must have completed all pre-approvals and facility safety training and must have that record on file at the GU LPG Terminal facility's office located at 42 Westborough Road North Grafton, MA. Only pre-approved drivers with current and valid security key cards will be allowed into the GU LPG terminal.

If a shipper arranges for self-loading, an administration charge of \$75 per trailer will be assessed to the shipper. This charge applies to the self-loading of dry and non-hazardous liquid products. Self-loading of hazardous materials is prohibited. (See Note 1)

NOTE 1: For the purposes stated herein, "self loading" shall be defined as a motor carrier using equipment affixed to its equipment to perform the physical transfer of Commodity.
